

Nano Dimension Reports 2019 Second Quarter Financial Results

Conference call to be held today at 9:00 a.m. EDT

Ness Ziona, Israel, August 14, 2019 – Nano Dimension Ltd., a leading additive electronics provider (Nasdaq, TASE: NNDM), today announced financial results for the second quarter ended June 30, 2019.

Nano Dimension reported revenues of \$1,161,000 for the second quarter of 2019. The Company ended the quarter with \$5,290,000 in cash, while total loss for the second quarter was \$1,188,000.

“During the second quarter we made important progress on the product side, and we recently presented the DragonFly LDM™ Lights-Out Digital Manufacturing system, which augments the capabilities of the DragonFly Pro system with new, proprietary, state-of-the-art technology that enables 24/7 uninterrupted 3D printing of electronics,” said Amit Dror, Chief Executive Officer of Nano Dimension. “Additionally, we presented new and exciting applications, and offered capabilities that have never been seen before in additive manufacturing and the printed electronics world.”

“We are currently focused on increasing our sales and optimizing our expenses, and moving forward we are better armed with our next generation DragonFly LDM system. We proudly continue to lead the field of 3D printed electronics and although the road can be bumpy, we have full confidence in our technology advantages and superiority, and we gain strength from the feedback we receive from our partners and customers,” concluded Mr. Dror.

Second Quarter 2019 Financial Results

- Total revenues for the second quarter of 2019 were \$1,161,000, compared to \$1,689,000 in the first quarter of 2019, and \$1,088,000 in the second quarter of 2018. The increase compared to the second quarter of 2018 was attributed to higher commercial sales of the DragonFly Pro 3D printer. The decrease compared to the first quarter of 2019 resulted from lower sales of the DragonFly Pro 3D printer. The Company believes that the delay in sales ramp-up has to do with customers’ desire for additional applications and features, which the Company started to present over the recent period.
- Research and development (R&D) expenses for the second quarter of 2019 were \$2,322,000, compared to \$2,152,000 in the first quarter of 2019, and \$2,063,000 in the second quarter of 2018. The increase compared to both the first quarter of 2019 and the second quarter of 2018 was mainly attributed to an increase in payroll and related expenses.
- Sales and marketing expenses for the second quarter of 2019 were \$1,507,000, compared to \$1,364,000 in the first quarter of 2019, and \$1,086,000 in the second quarter of 2018. The increase compared to both the first quarter of 2019 and the second quarter of 2018 was mainly attributed to an increase in payroll and related expenses and marketing and advertising expenses.
- General and administrative (G&A) expenses for the second quarter of 2019 were \$1,023,000, compared to \$1,791,000 in the first quarter of 2019, and \$609,000 in the second quarter of 2018. The decrease compared to the first quarter of 2019 is mainly attributed to the February 2019 public offering, in which the Company issued warrants and rights to purchase, that were classified as financial liability, resulting in issuance expenses of approximately \$1,224,000 that were recognized as G&A expense in the first quarter of 2019. The increase compared to the second quarter of 2018 was mainly attributed to an increase in professional services expenses.
- Net loss for the second quarter of 2019 was \$1,188,000, or \$0.01 per share, compared to \$1,476,000, or \$0.01 per share, in the first quarter of 2019, and \$3,770,000, or \$0.04 per share, in the second quarter of 2018. The decrease compared to the first quarter of 2019 was mainly attributed to a decrease in G&A expenses, as described above. The decrease compared to the second quarter of 2018 is attributed to a finance income of approximately \$3,694,000 that was recognized in the second quarter of 2019, as a result of the change in the fair value of warrants and rights to purchase that were issued in our February 2019 public offering.

Six Months Ended June 30, 2019 Financial Results

- Total revenues for the six months ended June 30, 2019 were \$2,850,000, compared to \$1,723,000 in the six months ended June 30, 2018. The increase was attributed to commercial sales of the DragonFly Pro 3D printer.
- R&D expenses for the six months ended June 30, 2019 were \$4,474,000, compared to \$4,611,000 in the six months ended June 30, 2018. The decrease resulted primarily from a decrease in payroll and related expenses.
- Sales and marketing expenses for the six months ended June 30, 2019 were \$2,871,000, compared to \$1,872,000 in the six months ended June 30, 2018. The increase was mainly attributed to an increase in payroll and related expenses and marketing and advertising expenses.
- G&A expenses for the six months ended June 30, 2019 were \$2,814,000, compared to \$1,494,000 in the six months ended June 30, 2018. The increase is mainly attributed to the February 2019 public offering, in which the Company issued warrants and rights to purchase, that were classified as financial liability, resulting in issuance expenses of approximately \$1,224,000 that were recognized as G&A expense in the first quarter of 2019.
- Net loss for the six months ended June 30, 2019 was \$2,664,000, or \$0.02 per share, compared to \$7,893,000, or \$0.09 per share, in the six months ended June 30, 2018.

Balance Sheet Highlights

- Cash and cash equivalents totaled \$5,290,000 as of June 30, 2019, compared to \$3,753,000 on December 31, 2018. The increase compared to December 31, 2018, mainly reflects proceeds received from the sale of American Depositary Shares representing the Company's ordinary shares in the first quarter of 2019, less cash used in operations during the six months ended June 30, 2019.
- Shareholders' equity totaled \$15,057,000 as of June 30, 2019, compared to \$15,572,000 as of December 31, 2018.

Conference call information

The Company will host a conference call to discuss these financial results today, August 14, 2019, at 9:00 a.m. EDT (4:00 p.m. IDT). Investors interested in participating are invited to register for the conference call here: <http://dpregrister.com/10133491>. Dial-in numbers, including a local Israeli number and instructions, will be provided upon registration. U.S. Dial-in Number: 1-844-695-5517, International Dial-in Number: 1-412-902-6751, Israel Toll Free Dial-in Number: 1-80-9212373. Please request the "Nano Dimension NNDM call" when prompted by the conference call operator. The conference call will also be webcast live from the Investor Relations section of Nano Dimension's website at <http://investors.nano-di.com/events-and-presentations>.

For those unable to participate in the conference call, there will be a replay available from a link on Nano Dimension's website at <http://investors.nano-di.com/events-and-presentations>.

About Nano Dimension

Nano Dimension (**Nasdaq, TASE: NNDM**) is a leading electronics provider that is disrupting, reshaping, and defining the future of how cognitive connected products are made. With its unique 3D printing technologies, Nano Dimension is targeting the growing demand for electronic devices that require increasingly sophisticated features. Demand for circuitry, including PCBs - which are the heart of every electronic device - covers a diverse range of industries, including consumer electronics, medical devices, defense, aerospace, automotive, IoT and telecom. These sectors can all benefit greatly from Nano Dimension's products and services for rapid prototyping and short-run manufacturing. For more information, please visit www.nano-di.com.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 and other Federal securities laws. Words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates” and similar expressions or variations of such words are intended to identify forward-looking statements. Because such statements deal with future events and are based on Nano Dimension’s current expectations, they are subject to various risks and uncertainties, and actual results, performance or achievements of Nano Dimension could differ materially from those described in or implied by the statements in this press release. For example, Nano Dimension is using forward-looking statements when it discusses the potential of its products and that it is currently focused on increasing sales and optimizing expenses. The forward-looking statements contained or implied in this press release are subject to other risks and uncertainties, including those discussed under the heading “Risk Factors” in Nano Dimension’s Annual Report on Form 20-F filed with the Securities and Exchange Commission (“SEC”) on March 14, 2019, and in any subsequent filings with the SEC. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: Nano Dimension’s ability to increase sales and revenue, its burn rate, and its ability to continue as a going concern. Based on the projected cash flows and our cash balances as of June 30, 2019, Nano Dimension’s management is of the opinion that without further fund raising it will not have enough resources to enable it to continue advancing its activities for a period of at least 12 months. As a result, there is substantial doubt about Nano Dimension’s ability to continue as a going concern. Except as otherwise required by law, Nano Dimension undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. References and links to websites have been provided as a convenience, and the information contained on such websites is not incorporated by reference into this press release. Nano Dimension is not responsible for the contents of third party websites.
