About Nano Dimension Ltd

Nano Dimension, founded in 2012, focuses on development of advanced 3D printed electronics systems and advanced additive manufacturing. Nano Dimension's unique products combine three advanced technologies: 3D inkjet, 3D software and nanomaterials. The company's primary products include the first 3D printer dedicated to printing multi-layer PCBs (printed circuit boards) and advanced nanotechnology-based conductive and dielectric inks.

In addition to the trading of the company's American Depositary Shares on NASDAQ, the company's ordinary shares are also traded on the TASE in Israel. The Bank of New York Mellon serves as the depository for Nano Dimension.
