

## Nano Dimension Adds A Top 10 Global PCB Manufacturer to its Growing List of Customers

NESS ZIONA, Israel, February 7, 2018 - **Nano Dimension, a leading additive electronics provider (NASDAQ, TASE: NNDM)**, today announced that one of the 10 largest PCB manufacturers in the world has purchased a DragonFly 2020 Pro 3D Printer. As an early participant in Nano Dimension's beta program, the customer gained first-hand insight into the DragonFly's full capabilities for rapid in-house prototyping and production.

The customer is at the forefront of PCB technology, with global clients across all major electronics sectors, including consumer, industrial, automotive, and more. The DragonFly 2020 Pro 3D Printer will become a part of its additive electronics manufacturing transformation.

"Since transitioning from our successful beta program to full commercial sales, we are seeing strong worldwide demand for our DragonFly 2020 Pro 3D Printer, particularly among manufacturers, defense and research institutes," said Amit Dror, CEO of Nano Dimension. "We are now rapidly expanding our go-to-market initiatives, while continuing to develop innovative 3D printing technologies and materials."

Nano Dimension's [DragonFly 2020 Pro 3D Printer](#) is redefining electronic additive manufacturing by empowering companies to take control of their entire development cycle. The award-winning system enables the 3D-printing of functional electronics such as sensors, conductive geometries, antennas, molded connected devices, printed circuit board and other devices.

### About Nano Dimension

Nano Dimension (TASE: NNDM, NASDAQ: NNDM) is a leading additive manufacturing company that is disrupting, reshaping and defining the future of how electronics are made. With its unique 3D printing technologies, Nano Dimension is targeting the growing demand for electronic devices that require increasingly sophisticated features and rely on printed circuit boards (PCBs). Demand for circuitry, including PCBs - which are the heart of every electronic device - covers a diverse range of industries, including consumer electronics, medical devices, defense, aerospace, automotive, IoT and telecom. These sectors can all benefit greatly from Nano Dimension's 3D printed electronics solutions for rapid prototyping and short-run manufacturing. ### Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal securities laws. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and similar expressions or variations of such words are intended to identify forward-looking statements. For example, Nano Dimension is using forward-looking statements in this press release when it discusses that the DragonFly 2020 Pro 3D Printer will become a part of the customer's additive electronics manufacturing transformation. Because such statements deal with future events and are based on Nano Dimension's current expectations, they are subject to various risks and uncertainties. Actual results, performance or

achievements of Nano Dimension could differ materially from those described in or implied by the statements in this press release.

The forward-looking statements contained or implied in this press release are subject to other risks and uncertainties, including those discussed under the heading “Risk Factors” in Nano Dimension’s annual report on Form 20-F filed with the Securities and Exchange Commission (“SEC”) on March 7, 2017, and in any subsequent filings with the SEC. Except as otherwise required by law, Nano Dimension undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. References and links to websites have been provided as a convenience, and the information contained on such websites is not incorporated by reference into this press release. Nano Dimension is not responsible for the contents of third party websites.
