

## **Nano Dimension to Present at Canaccord 38th Annual Growth Conference**

### **Amit Dror will also participate in a panel discussion titled “Emerging 3D Printing Technologies”**

NESS ZIONA, Israel- July 19, 2018 - **Nano Dimension Ltd., a leader in the field of 3D printed electronics (NASDAQ, TASE: NNDM)**, announced today that Amit Dror, co-founder and Chief Executive Officer, will present at the Canaccord 38<sup>th</sup> Annual Growth Conference in Boston, on Wednesday, August 8 at 2:30 p.m. EDT. In addition, Mr. Dror will participate in a panel discussion titled: “Emerging 3D Printing Technologies,” following the presentation. The panel will be moderated by Bobby Burleson, Managing Director, Research Analyst at Canaccord Genuity.

A live webcast of the presentation will be available to the public at: <http://wsw.com/webcast/canaccord30/nndm/>. The webcast will be archived for 90 days following the live presentation. Mr. Dror will be available for one-on-one meetings on August 8. To schedule a meeting, please contact your Canaccord representative or Miri Segal at [msegal@ms-ir.com](mailto:msegal@ms-ir.com).

### **About Canaccord Genuity 38<sup>th</sup> Annual Growth Conference**

For the 38<sup>th</sup> year, Canaccord Genuity will be bringing together some of the world’s most innovative companies and institutional investors at the Growth Conference. For two highly productive days, leaders in the growth universe will come together to share knowledge, discuss emerging trends, build relationships, identify opportunities and ignite global ideas for growth.

### **About Nano Dimension Ltd.**

Nano Dimension (TASE: NNDM, NASDAQ: NNDM) is a leading additive manufacturing technology company. Nano Dimension is disrupting, shaping and defining the future of how electronics are made. With its unique 3D printing technologies, Nano Dimension is targeting the growing demand for electronic devices that require increasingly sophisticated features and rely on printed circuit boards (PCBs). Demand for circuitry, including PCBs - which are the heart of every electronic device - covers a diverse range of industries, including consumer electronics, medical devices, defense, aerospace, automotive, IoT and telecom. These sectors can all benefit greatly from Nano Dimension’s 3D printed electronics solutions for rapid prototyping and short-run manufacturing.
